Career Objective

Enthusiastic and skilled Java Developer with a strong foundation in Core Java, Spring Boot, and Microservices architecture. Proven ability to build and deploy robust backend systems with secure RESTful APIs. Eager to apply my technical skills to develop scalable and efficient backend solutions in a collaborative team environment.

Education

Bachelor of Computer Applications (BCA) Dr. C.V. Raman University, Khandwa | 2021 – 2024

Higher Secondary Education (12th Grade) Madhya Pradesh Board of Secondary Education (MPBSE) | 2020 – 2021

Secondary Education (10th Grade) Madhya Pradesh Board of Secondary Education (MPBSE) | 2018 – 2019

Technical Skills

- **Languages:** Java, SQL, JavaScript, TypeScript, HTML, CSS
- **Frameworks & Libraries:** Spring Boot, Spring MVC, Spring Data JPA, Hibernate, JUnit, Angular, Bootstrap
- **Databases:** MySQL, Oracle DB
- **Tools & Technologies:** Git, Maven, Postman, Swagger, Jira, Eclipse, VS Code
- **Concepts:** Microservices, REST APIs, OOP, Multithreading, Collections, Agile Methodologies, JWT, Feign Client, Eureka, API Gateway

Projects

Hospital Management System | Personal Project

- Designed and developed a comprehensive hospital management system using **Spring Boot** to handle patient records, doctor information, and appointment scheduling.
- Implemented **RESTful APIs** for CRUD operations, enabling seamless management of medical data and appointment bookings.
- Utilized **JPA/Hibernate** with **Oracle Database** for efficient database operations and entity relationships.
- Enhanced application reliability by implementing **input validation** and **exception handling** mechanisms.
- Built the project into an executable **JAR** using **Maven** and thoroughly tested all API endpoints using **Postman**.
- **Tech Stack:** Spring Boot, REST APIs, JPA/Hibernate, Oracle Database, Maven, Postman

E-Commerce Web Application | Personal Project

- Engineered a secure and scalable full-stack e-commerce platform featuring user authentication, product catalog, shopping cart, and order management.
- Developed robust **RESTful APIs** using **Spring Boot** and **Spring Data JPA** for all backend operations, ensuring clean separation of concerns.
- Implemented **Razorpay payment gateway integration** for a seamless and secure checkout experience.
- Utilized **Angular** to create a dynamic and responsive single-page application (SPA) for an enhanced user interface.

- **Tech Stack:** Spring Boot, Spring Data JPA, REST APIs, Oracle DB, Angular, TypeScript, HTML/CSS

Fitness-Hub Website | Personal Project

- Designed and developed a full-stack fitness application with role-based access (admin/user), a macro-nutrient calculator, and subscription plans (free/paid).
- Implemented **user registration, login, and profile management** modules with secure session handling.
- Integrated **Razorpay API** to handle secure online payments for premium training plans.
- Built a responsive frontend with **HTML, CSS, and JavaScript** for optimal viewing on various devices.
- **Tech Stack:** Java, Servlets, JSP, Oracle DB, HTML, CSS, JavaScript, Razorpay API

Internship

Software Developer Intern | Data-Pro Computers, Khandwa | Oct 2023 - Apr 2024

- Contributed to backend development tasks by writing and debugging **Java** code in a live project environment.
- Gained hands-on experience in implementing **Object-Oriented Programming (OOP)** principles and **JDBC** for database connectivity.
- Assisted in the development of basic modules using **Spring Boot**, learning industry-standard development practices.

Certifications

Java Full Stack Development | Naresh I Technologies, Hyderabad | 2024-2025
