Objective

Motivated and ambitious entry-level Java developer with hands-on experience in developing web applications using Java. Eager to contribute to a dynamic team by building and maintaining Java-based solutions while quickly adapting to new technologies and industry trends. Seeking an opportunity to kick-start a career in software development.

Education

Vellore institute of technology, Bhopal *2021 – 2023*
Master of Computer Applications
- CGPA: 7.91/10

Gossner college, Ranchi *2017 – 2020*
Bachelor of Computer Applications
- Percentage: 74.83%

Technologies

Languages: Java, JDBC, Servlet, JSP, Oracle (SQL and PL/SQL) , HTML, CSS. And JavaScript

Frameworks And Libraries: Spring Boot, Spring, Spring MVC, Rest API, JPA and Microservices

Tools: Git, Maven

AI Tools: Cursor, GitHub Copilot and Windsurf AI

Projects and Experiences

Blood Bank Management Website
- Developed a web-based application to manage blood bank activities, including blood inventory, donor registration, and hospital requests. Improved operational efficiency 30% within hospitals
- Designed and developed the back-end using Java, Servlet, JSP; integrated with the front-end built with HTML, CSS, and JavaScript And Configured with Oracle Database

E-commerce Website
- Developed an interactive e-commerce platform with features like user authentication, product browsing, payments gateway and order placement
- Crafted innovative back-end functionalities in Spring Boot and Oracle Database ensuring flawless interaction with front-end technologies; implemented structured error handling that decreased troubleshooting efforts by 30% across the development team.
- Optimized data base queries, reducing page load time by 40%

Courses and Certifications

Full Stack Java Development *May 2024 – Dec 2024*
Naresh I Technologies
- Acquired proficiency in Core Java, Advanced Java (EE), and Spring Boot to build back-end applications, Restful API and Microservices.
- Learned front-end and back-end integration using HTML5, CSS3, JavaScript, React and authentication mechanisms.
- Gained proficiency in Oracle SQL/PLSQL databases and developing full-stack projects.
